

Reviews in Mutation Research

A Section of Mutation Research

www.elsevier.com/locate/reviewsmr

Special Issue

The Fourth International Conference on Environmental Mutagens in Human Populations

Guest Editors:

William W. Au
Lucia R. Ribeiro
Michael D. Waters

Assistant Guest Editors:

Carlos F.M. Menck
Catarina S. Takahashi

**The Fourth International Conference on
Environmental Mutagens in Human Populations**

Florianopolis, Brazil

May 4–8, 2003

Guest Editors:

William W. Au

Department of Preventive Medicine and Community Health, The University of Texas
Medical Branch, Galveston, Texas, USA

Lucia R. Ribeiro

Program of Post-Graduation in Pathology, Faculty of Medicine, Universidade
Estadual Paulista, Botucatu-SP, Brazil

Michael D. Waters

National Institute of Environmental Health Sciences, Research Triangle Park, NC, USA

Assistant Guest Editors:

Carlos F.M. Menck and Catarina S. Takahashi

Contents to Volume 544 (2003)

Series: Reflections in Mutation Research

Observations at the interface of mutation research and regulatory policy
W. Gary Flamm (USA)

1

Reviews

Molecular epidemiology of sporadic breast cancer. The role of polymorphic genes involved in oestrogen biosynthesis and metabolism

K. Mitrunen and A. Hirvonen (Finland)

9

Use of the single cell gel electrophoresis/comet assay for detecting DNA damage in aquatic (marine and freshwater) animals

R.F. Lee and S. Steinert (USA)

43

Theoretical analysis of mutation hotspots and their DNA sequence context specificity

I.B. Rogozin and Y.I. Pavlov (Russia, USA)

65

Special Issue

The Fourth International Conference on Environmental Mutagens in Human Populations

Guest Editors

William W. Au, Lucia R. Ribeiro and Michael D. Waters

Assistant Guest Editors

Carlos F.M. Menck and Catarina S. Takahashi

Introduction

87

Preface

The Fourth International Conference on Environmental Mutagens in Human Populations
W.W. Au, L.R. Ribeiro and M.D. Waters (USA, Brazil)

89

International Conferences on Environmental Mutagens in Human Populations—Opportunities, Accomplishments and Challenges
W.W. Au, W. Anwar, R.J. Sram, M. Chulasiri and L.R. Ribeiro (USA, Egypt, Czech Republic, Thailand, Brazil)

93

Mechanisms of mutagenesis and carcinogenesis

An overview of the mechanisms of mutagenesis and carcinogenesis

A. Sarasin (France)

99

Functional characterization of global genomic DNA repair and its implications for cancer

P.C. Hanawalt, J.M. Ford and D.R. Lloyd (USA, UK)

107

Oxidative and alkylating damage in DNA

G.R. Martínez, A.P.M. Loureiro, S.A. Marques, S. Miyamoto, L.F. Yamaguchi, J. Onuki, E.A. Almeida, C.C.M. Garcia, L.F. Barbosa, M.H.G. Medeiros and P. Di Mascio (Brazil)

115

Oxidative DNA damage and glioma cell death induced by tetrahydropapaveroline

Y. Soh, M.-H. Shin, J.-S. Lee, J.-H. Jang, O.H. Kim, H. Kang and Y.-J. Surh (South Korea)

129

New insights on how nucleotide excision repair could remove DNA adducts induced by chemotherapeutic agents and psoralens plus UV-A (PUVA) in <i>Escherichia coli</i> cells C. Lage, M. de Pádula, T.A.M. de Alencar, S.R. da Fonseca Gonçalves, L. da Silva Vidal, J. Cabral-Neto and A.C. Leitão (Brazil)	143
Effect of cell confluence on ultraviolet light apoptotic responses in DNA repair deficient cells H. Carvalho, R.M.A. da Costa, V. Chigaças, R. Weinlich, G. Brumatti, G.P. Amarante-Mendes, A. Sarasin and C.F.M. Menck (Brazil, France)	159
Apoptosis induced by MNNG in human TK6 lymphoblastoid cells is p53 and Fas/CD95/Apo-1 related T. Dunkern, W. Roos and B. Kaina (Germany)	167
Oestrogenic compounds and oxidative stress (in human sperm and lymphocytes in the Comet assay) D. Anderson, T.E. Schmid, A. Baumgartner, E. Cemel-Carratala, M.H. Brinkworth and J.M. Wood (UK, Germany)	173
Role of PSO genes in repair of DNA damage of <i>Saccharomyces cerevisiae</i> M. Brendel, D. Bonatto, M. Strauss, L.F. Revers, C. Pungartnik, J. Saffi and J.A.P. Henriques (Brazil, Germany)	179
<i>Dietary components and issues on genetically modified crops</i>	
Dietary components may prevent mutation-related diseases in humans L.R. Ribeiro and D.M.F. Salvadori (Brazil)	195
Neuroprotection by bioactive components in medicinal and food plant extracts O.I. Aruoma, T. Bahorun and L.-S. Jen (UK, Mauritius)	203
Human health concerns with GM crops T. Malarkey (USA)	217
Genetically modified crops: environmental and human health concerns J.L. Azevedo and W.L. Araujo (Brazil)	223
<i>Biomarkers and environmental health</i>	
Environmental hazards to children's health in the modern world W.A. Suk, K. Murray and M.D. Avakian (USA)	235
Micronuclei frequency in children exposed to environmental mutagens: a review M. Neri, A. Fucic, L.E. Knudsen, C. Lando, F. Merlo and S. Bonassi (Italy, Croatia, Denmark)	243
Linking exposure to environmental pollutants with biological effects M. Sørensen, H. Autrup, P. Møller, O. Hertel, S.S. Jensen, P. Vinzents, L.E. Knudsen and S. Loft (Denmark)	255
Mutagen sensitivity assays in population studies W.W. Au (USA)	273
Enhanced sensitivity of peripheral blood lymphocytes from women carrying a BRCA1 mutation towards the mutagenic effects of various cytostatics K. Trenz, S. Lugowski, U. Jahrsdörfer, S. Jainta, W. Vogel and G. Speit (Germany)	279
Response to challenging dose of X-rays as a predictive assay for molecular epidemiology A. Cebulska-Wasilewska (Poland)	289
Formation of chromosome aberrations: insights from FISH A.T. Natarajan and J.J.W.A. Boei (The Netherlands)	299
Environment and cancer in Brazil: an overview from a public health perspective S. Koifman and R.J. Koifman (Brazil)	305
Mutagenic activity as a parameter to assess ambient air quality for protection of the environment and human health V.M.F. Vargas (Brazil)	313
New revival of an old biomarker: characterisation of buccal cells and determination of genetic damage in the isolated fraction of viable leucocytes K. OBwald, A. Mittas, M. Gleis and B.L. Pool-Zobel (Germany)	321
Community outreach as an iterative dialogue among scientists and communities in the Texas gulf coast region J. Sullivan, P.D. Diamond, C.L. Kaplan, T.J. Mader, R. Santa and R.S. Lloyd (USA)	331
Genetic susceptibility, biomarker responses, and cancer H. Norppa (Finland)	339
<i>Molecular epidemiology and toxicogenomics</i>	
The impact of new technologies on human population studies M.D. Waters, J.K. Selkirk and K. Olden (USA)	349
Acquired and genetic susceptibility to cervical cancer W.W. Au, C.H. Sierra-Torres and S.K. Tying (USA, Colombia)	361
